## Home Building Will Be Active in Richmond

### Scarcity of Houses the Cause of Many Complaints

Permits for construction of homes are materially on the increase in Richmond. Each week sees the number grow. It is estimated that home construction this year will reach close to \$1,000,000, and it may pass that sum. This it will certainly do if the manufacturing corporations follow the request of the committee appointed by commercial organizations to confer with them and give help to the building movement.

A number of large apartment houses are needed in Richmond. Some have been erected, but they have been filled at once, most of the apartments being rented before ready for occupancy.

The home building committee is actively at work securing stock subscriptions for the corporation that is to be formed by citizens to provide houses. At least \$100,000 is desired, and it is hoped to start off with \$250,000.

The Richmond Industrial Commission is receiving many inquiries from outside owners of property who want to know about the building situation here.

## Attorney Makes His Debut

County Superintendent of Schools Wm. H. Hanlon made his first appearance before the bar in court Thursday, when he represented James Whalen, charged with burglary. Attorney Hanlon was appointed by Judge McKenzie to represent Whalen.

## "Jimmy" Hoey Here

James F. Hoey, deputy county tax collector, also an attorney who is destined to go "over the top," visited in Richmond Wednesday. Attorney Hoey will make an announcement in the near future about the district attorneyship, which no doubt will be well received in Contra Costa county.

## K. of P. Get There

The Knights of Pythias of Richmond realized \$250 from their country store and turned the money into the Red Cross fund.

## Wandering in Sutter County

A. A. Wandering was in Marysville last week on business. He enjoys many friends here. He is well known about the bay district, and is perhaps one of the youngest candidates for the assembly, and is well qualified for the place. He received excellent training as clerk at four sessions of the state legislature, where he gained a wide acquaintance with well-known legislators, who are now all endorsing him for the position to which he aspires. He also has the endorsement of many of the most representative citizens of Berkeley. Marysville Appeal.

The air personnel in the first year of the war increased from 65 officers and 1120 men to 100 times that number. Eleven kinds of schools have been installed.

During the first year of the war the army paid \$60,000,000 for horse-drawn vehicles and harness; more than \$50,000,000 for horses, mules and harness. Expenditures for the fiscal year ending June 30, 1919, for fuel and forage are estimated at more than \$50,000,000.

## Things Have Changed

History tells us that in the early days when blue laws of England were in vogue, men were put in the stocks for kissing their wives on Sunday. How different now. Preachers ask the women to bring their knitting to church to work for the Red Cross while the sermon is being delivered.

## Our Readers Pleased

That newspaper which prints what its readers want is completely fulfilling its function. It's the newspaper's job to do this; not to print just what the editor wants to print, what the bankers to whom the editor owes money wants printed, what the politician in office who can dish up patronage wants printed, but what the people, its readers, want to read.

## Acantha Chapter Initiate Tonight

Acantha Chapter, Eastern Star, initiate tonight at Bank hall. There will be dancing and refreshments.

War Saving Stamps are gilded.

## War Gardens Tramped On

Keep off the war gardens or there will be no crop of spuds for the kiddies who forget and trespass. Inspector Wylie says he is receiving many complaints, and advises parents to train the youngsters in "military tactics"—and ask them to keep off the gardens. The soldiers will need the spuds.

## My Boy "Over There"

By O. K. Shlamsky

My boy is "over there." Maybe your boy is at the front, or well on his way to the battle lines. If he is abroad, in camp or on the draft list, it is not necessary to tell you that he cannot be supported in his work without guns, ammunition, food—and other boys. Those of us who have a direct, personal interest in this war through the activity of our sons and brothers do not have to be asked the second time to buy Liberty Bonds. We dig down deep into our pockets and buy all we can. Why should we fathers and brothers alone furnish the boys and the money to insure the success of this war? You know boys who are now in Uncle Sam's service! They have been your neighbors, your employees, your acquaintances. You surely feel that they should have all the backing they can get. You want them to be the best fighters in the world. You want them to get through with this job in a hurry. You want them to come back home. You want peace—and if you're the kind of a man the boys think you are you would put up every last cent you have to guarantee a speedy and lasting peace!

It's odd, isn't it, that it is an easy matter for Uncle Sam to get all the boys he wants to fight for your rights and mine, but that it is hard to get money to back up these fighters? But would you show the Kaiser now that our money, as well as our boys, is at the command of the Government? Well, over-subscribe this Third Liberty Loan, and we'll prove to the central powers that this world will get along without a Hohenzollern dog collar. Of course we will! We're going to prove to my boy, to your boy and to the million other boys that we shall back them to the finish with our dollars.

## Surprise Party For Miss Timmons

Miss Margaret Timmons, of 547 Sixth street, had the surprise of her life Tuesday night when a party of young friends raided her home.

A fine program was rendered, the Elcho quartet doing the honors, and our Jack Crow, the inimitable piano "tickler" and comedian, Miss Gloria Osborn and others, all artists and top musicians, converting the Timmons home into a musical center for the evening.

Those present: Mr. and Mrs. A. J. Timmons, Arthur Timmons, Mary and Margaret Timmons, Winnie Champion, Gloria Osborn, Doris Ferguson of San Pablo, Mr. and Mrs. H. J. Hennessey, Mrs. Winsby, Mr. and Mrs. Jack Crow, Barney Robertson, Bill Maloney, Paul Iverson, Gene Downey and James Rasmussen.

## Cupid Visits County Clerk's Office

Taking only his chief into his confidence, and then only after securing a promise of secrecy, Deputy County Clerk C. C. Baker slipped away quietly Thursday, the 4th inst., with Miss Pennington of Richmond, who became his bride later in the day. The wedding took place in one of the southern coast counties, and the couple are now enjoying an automobile honeymoon. Mrs. Baker has been filling a position as stenographer in the Oleum refinery offices. The couple will continue to reside in Richmond. Martinez Gazette.

## Fine Baby Boy

A baby boy arrived at the home of Mr. and Mrs. A. J. Jorgenson, 539 Pennsylvania avenue, Sunday morning.

## Liberty Bonds Good Investment, Not Circus Tickets

It is estimated that from \$3000 to \$5000 will be taken out of Richmond by the coming circus, estimating that from 5000 to 8000 persons attend the various performances.

Circuses are now barred in the middle and eastern states, the people taking the view that the war period is no time to spend money for antiquated amusements.

But it seems that the people of California are "easy marks," and fall for about anything that affords a little diversion in the way of amusement, war or no war.

How any father or mother can occupy a seat in a circus today and be entertained who has a boy or two in that awful maelstrom of hot steel ripping the trenches at the front in the European conflict, is beyond comprehension.

The circus brings nothing in, and takes everything away except the tent-stake holes.

Investment in Red Cross bandages, war stamps and Liberty Bonds is far more creditable and appropriate at this time.

Think this over.

## Can "Deliver Goods"

Manager R. S. Elliott of the local Wells Fargo office, was formerly a road messenger. He is giving the public of Richmond the benefit of his experience in handling packages consigned via the Wells Fargo Co. that is attained only by a few. Richmond needs more of his kind.

## Odd Fellows Vote \$500

Twilight Lodge I. O. O. F. voted to buy \$500 in Liberty Bonds and will hold a public meeting next Wednesday night.

## COME ON!

By Douglas Fairbanks

YIP! YIP! Are we going to trim the Germans? Well, I guess with all of Uncle Sam's boys rearing to go, it's an easy job. But you have to help! The Third Liberty Loan is more important than the first and second. The Government needs your financial cooperation. You must do your "bit" by subscribing to more bonds than your income will allow. Victory demands sacrifice. To win without paying would make a laughing stock of the law of average.

Aside from the investment you are assisting to promote world democracy. Think of it! To make the world safe from unjust ruling. Government bonds are the last word in securities. Your property and other investments will be worthless if we don't win this war. But there's no such word as "don't" in the American Patriotic dictionary.

Remember we are all Americans! Let's get together! Buy more than your share of Liberty Bonds. The same of life resembles the famous childhood game of "follow the leader." When you do your patriotic duty, your neighbor will follow, and so on down the line. When our boys come marching home with Old Glory waving proudly in the wind, you will be thrilled with the thought that you have done your "bit."

Let us all be stockholders in the Bank of Humanity. Come on!

"We could not have endured such aggressions and survived as a self-respecting nation of free people."—Secretary of the Treasury McAdoo, at San Francisco, Oct. 11, 1917. American blood calls to you. Buy Liberty Bonds.

### When Through With This Newspaper, Mail It to the Soldier Boy

WHEN you are through with the home newspaper, let it do double service by mailing it to a soldier from the home town.

Your boys left home, friends, everything that is dear to them, to fight for you.

The home paper is a link that will keep them in touch with friends and relatives and will banish homesickness.

Send this newspaper to some soldier boy who is dear to you. He will thank you from the bottom of his heart.

## Ruby Hill Miners Near Mother Lode

The Ruby Hill mine, the well known mining property in Tuolumne county, which is being financed and developed by Sacramento capitalists and hundreds of small shareholders, is said to be nearing the mother lode, the bed of an ancient river several hundred feet beneath the base of a mountain under which a 45-degree tunnel is being driven.

Samples of free gold and gold dust have been sent this paper, with advice to hold on to our stock. Several hundred shares of which we purchased for a song five years ago.

## Down From the North

"Curley," the former restaurateur, who had places at Third and Macdonald and later at Eighth and Macdonald, has returned from the Sound country and is being greeted by his many Richmond friends.

## A Bright Little Girl

Sophie Wilson, the child actress, always stops at this office and interviews the "dramatic critic." Sophie is a bright little girl, modest and refined, and some day her name will be written on the tablet of fame in the profession for which she has a wonderful and natural gift.

## Fraternal Order First To Start War Gardens

War gardens are all the rage now, and Richmond Drove of Stags No. 130 is taking the initiative in the work to help win the war.

At Wednesday night's meeting of the drove, an appropriation was made by unanimous consent to cultivate land in the northeastern part of the city and plant to beans and potatoes, the proceeds from the sale of the produce, or the produce itself, to be applied directly in helping the allies to win the war.

The Stags will start with a fund of about \$50, this amount to be spent for seed and cultivation.

Members of the drove are determined to make the project successful, and credit must be given this fraternal organization for being the first to propose the war garden plan last year.

The Stags were ahead of the times then, but are up the minute now.

The Stags' dance and social will be given May 8, following the close of the third Liberty Loan drive.

## Young Lindquist Now in England

A. L. Lindquist received a letter from his son Antone, recently, in which he stated that he was somewhere in England in an aviation camp. He was promoted to corporal in the 161st aero squad. He says he likes England and the English people, but misses the California sunshine.

## Glass in the Candy; Sender Now in Jail

E. G. Lindberg, former Richmond motorman, and now a soldier stationed at Camp Fremont, was indicted Wednesday in San Francisco by the federal grand jury on a charge of sending candy containing powdered glass and iodine to himself through the mails.

## THE BALANCE OF POWER

## OVER THE TOP

### Sam Is Over There

Sam Klinefelter, the young man who was with the Western States Gas and Electric Company here at Second and Nevin, and who was at Camp Lewis for several months, has arrived safely in France. Sam may tell us how they are handing it out to the Boches in his next.

### Our Army Boys

Ray Bushnell writes this newspaper that he is now at Kelley Field, South Antonio, Texas, working for Uncle Sam in the capacity of motor truck driver, Line 126. He says he is enjoying the new occupation, and is improving in health and gaining in weight since going into training. Ray was formerly with the Richmond News, and was well liked by all the members of the craft. His father is one of the old San Francisco Post printers, and is now with the Oakland Enquirer.

### U. S. War Notes

The annual pay of the army now exceeds \$500,000,000.

Production of 10,000 new automobile trucks is in progress for the army.

The navy ration in 1917 cost \$0.438, as against \$0.37684 in 1916.

Our 14-inch guns weigh nearly 95 tons and are over 58 feet long, costing \$118,000.

Our 35,000 ton cruiser, capable of 35 knots, will be the fastest in the world.

About 60,000 officers and men are engaged in coast patrol work of the navy.

During 12 months the army hospitals increased from 7 to 63 in number and from 5000 to 58,400 beds; 30,000 more beds are being added.

## SUGGESTIONS For Presents

There will be June brides as well as war brides, and there are many attractive and appropriate gifts for both. Mr. Edwards, the pioneer jeweler, will be pleased to give you some valuable information about selections.

## Buy Bonds to Save U. S., Plea to People

Unless the War Is Won in Europe, This Country Will Have to Pay in Devastated Homes and Cities; Americans at Front Must Be Backed to Nation's Limit

Washington.—Unless Germany is beaten America can hope for no freedom. This is the note which ran through the statements by cabinet members given out April 5 in support of the third Liberty Loan.

Benedict Crowell, acting secretary of war, said in part:

We realize the enormous task before us, and we are confident of winning, but it will take the combined punch of the whole American people and will require an immense expenditure of men and money. If we are beaten in France, the struggle probably will be transferred to American soil. Plans of the invasion and subjugation of the United States are now on file in the office of the German general staff. This we know definitely. I strongly urge you to buy all the Liberty Bonds that you can afford, and then a few more.

Secretary Daniels of the Navy:

Our men in the trenches and on the ships are counting their lives as nothing and are maintaining the highest standards of American manhood and heroism. It is our privilege at home to sacrifice and sacrifice and sacrifice to provide the government with the means to carry on the war.

Secretary Lansing of the State Department:

The United States has been at war for a year. The first enthusiasm which followed the declaration that we would take up arms in the cause of liberty and justice has passed, but in its place there has come to the nation a spirit of determination and self-sacrifice.

Secretary McAdoo of the Treasury:

The least duty we can perform—and we should be eager and happy to perform it—is to lend our money, every available dollar we have or can save, to our government in order that our gallant sons may be supplied with all they need to save America.

Attorney General Gregory:

To save the lives and liberties of ourselves and our children we have been forced unwillingly to take up arms. To prevail we must dedicate to the farthest limit our every power. Shall we give or sacrifice less for freedom than our enemy gives for despotism? What shall a hoarded penny profit us if we may spend it only as slaves?

Secretary Houston of the Department of Agriculture:

If we do not win this war we shall indefinitely face the interference of the Prussian autocracy or bear permanently the intolerable burdens of militarism. To win this war we must have both men and money.

Postmaster General Burleson:

One year ago we took up the gauge of battle flung in our faces by Germany. It is a righteous war, waged by our people. No more inspiring exhibition of patriotism was ever made than the response by them to the requests of President Wilson that they contribute to its support by purchasing our government's obligations. He knows us not who doubts that the response will be far beyond the amount required.

Secretary Redfield of the Department of Commerce:

Buying Liberty Bonds makes our homes safer, our business more secure, helps maintain America against enemies who mock at our power and think us weak because we respect the rights of others.

Secretary Wilson of the Department of Labor:

The Third Liberty Loan has an even greater significance than the first two. They were the expression of instant and responsive patriotism. This serves a grim notice on the foe that America is in the fight until the lives of its people are safe from the assaults of barbarism.

## War Happenings of Week

The name of Mme. Durell, daughter of George L. Ingraham of 247 Fifth avenue, New York, has been added to those of the Americans killed in a Paris church by German shells.

Richard Mansfield, 26, son of the late Richard Mansfield, famous American actor, who enlisted in the aviation section of the signal corps at New Haven, died at a camp in San Antonio, Texas, April 3.

At the Japanese Foreign Office it was said that no confirmation had been received of the statement published by the "Nichi Nichi" that the situation at Vladivostok, while not immediately critical, was becoming worse.

In order to avoid assemblages of people during the hours while the German long-range gun is bombarding Paris, the prefect of police has decided to prohibit until further notice all meetings, whether political, vaudeville, moving picture or concert.

Several Russian warships, including four submarines in the harbor of Harbin, were blown up by their own crew, who feared capture by the Germans. The mayor of Sukhum-Kale reports that the Black sea fleet torpedo boats are bombarding and looting towns along the coast.

John Lind, junior officer on the steamer Sacramento, which arrived in San Francisco from Honolulu April 4, was arrested by Captain J. J. O'Meara of the police neutrality squad as the vessel docked at pier 32 on complaint of the skipper who accused Lind of disabling the vessel while she was in midocean.

At the end of a solemn dedication service the great star-bedecked service flag representing the 431 University of Oregon men now serving their country, was unfurled before Johnson Hall, Eugene, Oregon, early April 4, the University battalion standing at attention and the band playing the national anthem.

General Pershing sent Brigadier General Lewis, commander of the American troops in Paris to represent him personally at the funeral services April 4 for the four American women killed in a church during the German bombardment on Good Friday. The women were Mrs. Marie Grinnel and Mrs. Edward H. Landon and Mrs. Landon's daughters, Mrs. Ralph Speed and Miss Ruth Landon.

## AMERICAN SOLDIERS IN FRONT LINE TRENCHES AT LORRAINE GATE

Here are two of the first pictures received in the United States showing our boys at the actual fighting front holding a portion of the Lorraine sector against the Teuton horde. At the top is shown a section of a trench held by American troops, and at the bottom a soldier ready to fire a signal rocket as a warning that a German attack has begun.

## YEAR OF WAR COSTS U. S. \$9,000,000,000

Loans Made by This Country to the Allies Account for More Than Half of Huge Expenditure

Washington.—Nine billion dollars is the approximate cost to the United States of one year of war.

More than one-half has gone in loans to allies, which will be repaid eventually; over one-third has been spent for the army and military establishment; one-tenth for the navy and one-fifth for shipbuilding.

Just one-sixth of this big war cost has been raised by taxation and other ordinary sources of revenue, and the balance has come from sale of Liberty bonds and certificates of indebtedness.

Enormous as these war expenditures may seem to a country whose government in peace time costs between \$700,000,000 and \$800,000,000, they are less than Great Britain's and are only about one-third of estimates made by officials less than a year ago. Slow progress of the shipbuilding programme and the retarding of the outpouring of war supplies are regarded by officials as the chief reasons why expense did not equal estimates.

Government expenses now are running about \$1,000,000,000 a month, with somewhat less than half going to allies who spend the greater part of their loans for war supplies in this country.

Since the declaration of war, April 6, 1917, the government's actual expenditures have been more for normal activities, even if the United States had not entered the war.

Ordinary expenditures under which the treasury classifies all outlays for operation of the governmental machinery and war enterprises since the declaration of war, have been approximately \$5,000,000,000. Actual payments to allies amounted to about \$4,745,000,000.

Income from internal revenue most of which is represented by war taxes and from customs and miscellaneous sources, was run up to about \$1,535,000,000, and the two Liberty loans have brought to the treasury a little less than \$5,000,000,000. Small collections from war savings and thrift stamps in the last four months amount to \$10,000,000.

## COMMENDS WORK OF FARMER

Secretary Houston Pleads for Greater Efforts to Produce Needs of Our Allies

With record crops grown this year, the nation's farm and live stock production must be stimulated to a still higher efficiency during the coming 12 months if domestic demands and the needs of the allies are to be adequately met, Secretary Houston says in his annual report to congress.

"That the farmers of the nation have generously responded to the appeals for increased production, and that much has already been done to insure a large supply of foods and feedstuffs," says the report, "justifies no let-down in their activities or in those of all agricultural agencies. On the contrary, even greater efforts must be put forth in the coming months."

Example.

"Wealth doesn't always bring happiness."

"No," replied Cumrox, "sometimes it's the means of landing him in tight shoes and a high collar at an ice cream party and making him perfectly miserable."

## U. S. SOLDIERS ARE MUTILATED

Throats of Three of Our Boys Are Cut by Germans, Writes Adjutant of the Salvation Army

Chicago.—A ghastly illustration of German hatred of American soldiers is given in a Salvation Army letter made public here April 4 by Adjutant Fletcher Agnew. It was written in France by Adjutant R. C. Stabard, who has charge of a Salvation Army hut, to Commander Eva Booth, who turned it over to Adjutant Agnew.

"I visited a base hospital recently," says the letter, "and had this story from a sergeant who had passed through one of the raids. The sergeant was horribly wounded by a grenade and was passed by the Germans as dead. Before the sergeant lost consciousness, however, he saw a dozen Germans overpower three American boys and cut their throats from ear to ear. The sergeant said the murder of the third American was the most horrible. Four Germans held him while a fifth fairly severed his head from his body."

"I have just learned," continues the letter, "that this same company of Americans passed through here today with their bayonets sharpened like razors, sworn to avenge this awful crime against their comrades. What can you say to men bound on such an errand except bid them strike with all their might and harder because of the righteousness of cause and the devilishness of the enemy?"

Adjutant Stabard admits to Commander Booth that it is often very difficult to follow the dictates of forgiving Christianity while hearing daily reports of Hun atrocities.

"It is the work of the enemy brigades known as 'the butchers' that makes our blood boil and makes us forget to love our enemies," he says. "These are picked brutes for raiding purposes with the purpose of intimidating by frightfulness."

## DRAYMEN TURN DOWN TEAMSTERS' DEMANDS

Declare They Cannot Pay Increase and Remain in Business

San Francisco.—The demands of the Teamsters' Union for an increase of 50 cents a day and a nine-hour, instead of a ten-hour day, were refused by the Draymen's Association at a meeting of the conference committees of both organizations April 4.

"The men will strike on May 1 if their demands are not granted," said John P. McLoughlin of the conference committee of the Teamsters' Union after the meeting.

"We cannot pay the increase and remain in business," said Felix Gross, manager and secretary of the Draymen's Association, last night. "We have not received an increase in our rates since January, 1917, and since that time horses, wagons, harness, feed and everything that we use have increased in price from 50c to 200c."

"Our refusal is final," he added. "We took this action only after a careful canvass of our membership, and not until all of them proved from their books that the increase would be ruinous."

The justice of the demands of the men was conceded by Gross in a further statement, when he said that the increased cost of living since January, 1917, was over 50 per cent, and the wages of the men had only been increased 12 1-2 per cent during that time.

More than 2000 men, including all the truckmen, draymen and retail deliverymen on the city, are involved.

The present wage scale is from \$3 to \$4.50 a day for a ten-hour day. The demands of the men represent an increase of from 90 cents to \$1.50 a day. The conference committee has been meeting from time to time several weeks, and while the conferences by the action of yesterday have been broken off, either side may until May 1 ask for further consideration of the subject.

## FREE IRELAND AND FREE SERBIA URGED

San Francisco.—A free Serbia and a free Ireland political equality and self-determination for all races was the interpretation put upon the battle cry of America. "Make the World Safe for Democracy," by T. P. O'Connor at a luncheon of the Serbian Relief Society April 4.

"At the end of the war the scattered members of the Serbian race must be brought together into one nation, where the Serbs will have their own laws, and their own rulers," he said. "And, if I may add, the same should happen to my own country."

O'Connor traced a parallel between the two nations.

"In Serbia a German minority in one part of Austria and a Magyar minority in another were oppressing the ideals and aspirations of a Serbian majority," he said. "The same thing has occurred in my country."

He also declared that Americans should be proud that their country has gone to war against Germany even if it had no concern of its own in the conflict, but was merely throwing its power in favor of the freedom and liberation of small races and the establishment of their rights to self government.

Lieutenant R. F. Ives of Chicago, Carl E. Ekstrand of Brooklyn, N. Y., and Russell H. Dwigins of Waynetown, Ind., were killed in aviation accidents at Ellington field, Houston, Texas, April 4.

## BOY SCOUTS

Conducted by National Council of the Boy Scouts of America

## SCOUT WINS WAR CROSS

Scout Gordon Kitchen of troop No. 4, Montclair, N. J., seventeen years old, has received the Croix de Guerre for bravery on the field of Verdun. Scout Kitchen writes home as follows:

"We as a section have been decorated with the Croix de Guerre four times. So on each car in the section we have a Croix de Guerre with two stars (one silver and one bronze) and two gold palms (this is painted on the cars, of course). When an organization receives two citations with order of the Army (a palm is the insignia) they are allowed the additional honor of the Fourragere, a silk cord worn around the left shoulder and left breast. We are the only section in France, either French, English or American, regular or volunteers, to receive the Fourragere."

"Hope you won't judge I'm thinking and going all on honors of this kind. One soon finds out that decorations and honors are the results of hard work. You may be pleased to know that I received a personal decoration and am now the proud possessor of the Croix de Guerre with a silver star citation."

"We have seen thousands of German prisoners, and believe me they are a sorry-looking lot. How they can keep on the way they do is beyond me. Many of these prisoners are only boys. They seem thin and haggard and wish the war was over."

"Let's hope for the best anyhow. There won't be much doubt about the backing in America if everyone turns to the way the scouts have."

## INDIAN CHIEF A SCOUTMASTER

Red Fox, Skullshush, "the Indian Man of Mystery," is traveling on his pony to his tribe in Montana by letter from President Woodrow Wilson.

Red Fox was born in Alberta, Canada, in the Blackfoot country. At the age of seven he was placed under the guidance of a warrior and taught the things every Indian boy learns. To know the stars, the trees, the birds, the animals and their language, the secrets of the woods and caves, of streams and pools. All the wonderful lore the Boy Scouts of America are gaining through camp life comes to the Indian boy as part of his normal education by older men in his tribe.

Following his early boyhood days in the Blackfoot reservation Red Fox spent his early manhood in the Little Horn country, where he went through regular graded schools and high school. He was scoutmaster of the first Indian Boy Scouts of America.

## "ALL PROUD TO BE SCOUTS."

"The Boy Scouts of America at eight years of age is full of strength and vigor and promise for the future," says President Colin H. Livingstone. "All who are now members are having the benefit of the movement at the most interesting time in its history, as well as the most important time in the history of the world."

"Life was never so full of opportunity as today; and the Boy Scouts of America, because of the effectiveness of its program and the character of its membership, is playing a mighty important part in the affairs of our nation."

"We are all proud to be scouts, but why should we be content with a membership of but 295,000 boys and 78,000 men? There are 10,000,000 boys who should have the benefit of the boy scout program."

There are 295,708 Boy Scouts of America in good standing, compared with 190,728 on the seventh anniversary last year. These boys are organized in 13,787 troops, with 78,873 men leaders.

## AMERICA'S DEBT TO SCOUTS.

April is Kenton's moon on the Buckskin calendar and the reason the scouts all know about Simon Kenton is that, unlike some people, scouts know that the western boundary of the United States does not run along the top of the Allegheny mountains, and that one reason for this is the great work of the Buckskin men, says Dan Beard.

It's high time these Buckskin men were put in their proper places in history, for as compared with the Puritans and the Cavaliers of the eastern coast they were real empire builders.

The Buckskin man possessed the moral rectitude of the Puritan, combined with the dash and gaiety and joyousness of the Cavalier. Fearless, generous, hospitable, he is a true hero of romance; and that is the reason all scouts love him.

## SCOUTS ON A FUEL HIKE.

On Lincoln's birthday the scouts each year have a "fuel hike." The scouts know that Abraham Lincoln was a rail splitter, and that while wooden rails are not in demand today, firewood is needed.

So they hike to the woods or to backyards or cellars where wood is going to waste, and cut up the fuel.

They use a little of it in cooking a genuine scout meal, and deliver the rest where it will do the most good.

## Condensed California News

San Mateo.—San Mateo County Food Conservation Board was organized here April 4, by County Food Administrator Douglas S. Watson. Representatives of all the towns in the county are taking part in the organization. L. M. Fride of San Mateo was appointed secretary.

Placerville.—Placerville Parlor, Native Sons of the Golden West, holds the banner for the heaviest Liberty Bonds subscription, number of members considered, of any parlor of the State. The grand parlor has so notified the local parlor. The local subscription was \$3000.

Sacramento.—No more wooden underwear will be supplied to inmates of State institutions until the war is over, according to W. G. McMillin, state purchasing agent, who has received a telegram that the government had commanded the output of flannel in the United States for the purpose of making gas masks.

Colfax.—Colfax has contributed two physicians to the medical department for service in France. Dr. E. A. Hays, specialist in tuberculosis and owner of a sanatorium here, left for New York recently and now Dr. Henry T. Rooney has received a captain's commission and leaves for the East April 10. Both expect to sail for France immediately.

Sacramento.—J. M. Cremin, in charge of election matters in Secretary of State Jordan's office, says that arguments for initiative petitions should be in by July 6 so as to give the office a chance to make up a copy for printing voters pamphlets. The office would like to have arguments copy sooner if possible.

Chico.—Miss Blanche O. Rogers, who shot and killed George Reed, a horse trader, was exonerated by the Grand Jury April 5. The jury held that Mrs. Rogers had acted in self-defense. Following the verdict Mrs. Rogers was released from custody and left for San Francisco. Mrs. Rogers, who was charged with the murder of George Reed, was attempting to force an entrance into her camp that Mrs. Rogers shot him. Just before he died Reed turned over to the woman \$1000 in cash and all his belongings.

Sacramento.—A fruitless search of a private residence here for the skull of a Hawaiian King and a silver shield and silver crown, alleged to have been the property of the late Queen Liliuokalani of Hawaii, was conducted here by Deputy Sheriff Julius Asch of Honolulu, assisted by local police detectives. Deputy Sheriff Asch arrived here early today and obtained a search warrant from Justice of Peace Robert O'Brien. The Honolulu officer told Justice O'Brien the heirlooms were stolen in Hawaii by American sailors, who brought them to the United States.

Sacramento.—Loyalty will play no small part in the granting of certificates to future candidates for teachers in the State of California and for bestowing diplomas by the trustees and San Francisco State Normal School. Students must subscribe to and acknowledge an oath of allegiance to the United States of America before graduation. Teachers also must file an oath of allegiance before receiving their credentials to teach in California.

## FACE the FACTS

**L**ET us face the facts. The war situation is critical. Unless the Allies fight as they never yet have fought, defeat threatens. Hungry men cannot fight at their best; nor hungry nations. France, England, and Italy are going hungry unless we feed them.

**Wheat Savings**—They must have wheat. It is the best food to fight on. It is the easiest to ship. We alone can spare it to them. By saving just a little—less than a quarter of what we ate last year—we can support those who are fighting our battles. And we can do it without stinting ourselves. We have only to substitute another food just as good.

**The Corn of Plenty**—Corn is that food. There's a surplus of it. Providence has been generous in the hour of our need. It has given us corn in such bounty as was never known before. Tons of corn. Trainloads of corn. Five hundred million bushels over and above our regular needs. All we have to do is to learn to appreciate it. Was ever patriotic duty made so easy? And so clear?

**America's Own Food**—Corn! It is the true American food. The Indians, hardiest of races, lived on it. Our forefathers adopted the diet and conquered a continent. For a great section of our country it has long been the staff of life. How well the South fought on it, history tells. Now it can help America win a world war.

**Learn Something**—Corn! It isn't one food. It's a dozen. It's a cereal. It's a vegetable. It's a bread. It's a dessert. It's nutritious; more food value in it, dollar for dollar, than meat or eggs or most other vegetables. It's good to eat; how good you don't know until you've had corn-bread properly cooked. Best of all, it's plentiful and it's patriotic.

There are at least fifty ways to use corn meal to make good dishes for dinner, supper, lunch or breakfast. Here are some suggestions:

HOT BREADS	DESSERTS
Boston brown bread.	Corn-meal molasses cake.
Hocceake.	Apple corn bread.
Muffins.	Dumplings.
Biscuits.	Gingerbread.
Griddle cakes.	Fruit gems.
Waffles.	
HEARTY DISHES	
Corn-meal croquettes.	Corn-meal fish balls.
Meat and corn-meal dumplings.	
Italian polenta.	Tamales.

The recipes are in Farmers' Bulletin 565, "Corn Meal as a Food and Ways of Using It," free from the Department of Agriculture.

### Electric Power the Great Lever

"But give me a lever long enough and I will move the world." The ancient physicist had never heard of electric power. He would doubtless open his eyes in wonder today to see how nearly the "lever" (electric power) is moving the world.

The use of electric power has come so rapidly upon us that few realize how much dependence we place upon it as a people and as individuals. Without it the wheels of industry would stop, transportation would be seriously affected and darkness would prevail.

Electric horse power has released millions of human power for more important tasks, and if we are to progress—it, indeed, we are to win the war—electric power must take an even more important place in our industries and in our daily lives. President Wilson has referred recently to the importance of development of the water power of the country and has suggested legislation which will help towards this end.

Not only this, but the President and Secretary McAdoo have gone farther and indicated that public utility commissions and other regulating bodies take into consideration the greatly increased cost of operation of the companies today, due to sharp advances in cost of labor and material, and grant them speedy relief where necessity demanded in order that their high efficiency may be maintained as a war necessity.

### Build Ships and More Ships

At last the truth is out! The ostrich has raised its head and shaken the sand from its eyes. The British admiralty has surrendered its most precious secret—shared with them by the Germans—and published to the world the shipping losses.

Since the war began there have been sunk—mostly U-boats—11,827,572 tons gross. It is a colossal figure, that, ELEVEN MILLION TONS OF MERCHANT SHIPS!

It is a tonnage equal to one-third of the entire allied tonnage afloat upon the seven seas.

In the same period that upward of eleven million tons have been sunk, the shipyards of the world, other than those of the Central powers, have only constructed 6,606,275 tons gross—just a little over half the amount that was sunk.

From today until the war has ended—in an allied triumph—we must shoulder the burden of ship-building. We must meet the U-boat challenge. Ton for ton, our shipyards must launch 'em as fast and faster than the German sharks can sink 'em.

The only answer that we, of California, and of Oregon, and of Washington, and of every state which has a sea coast and shipyards can make to the roar of those Teuton guns is to build SHIPS, and more ships, and still more ships.

## LOSS THAT SPELLED TRAGEDY

No Wonder Damsel Was Embarrassed Over Temporary Parting From Necessary Article.

For two hours it was noticed that she sat, evidently much worried, in the foyer of a New York hotel. Occasionally she half rose as if to depart, and then biting her lips, she would sink back in her seat on the circular divan about the palms. When it had about been decided to send some one with a polite query as to whether she needed aid she rose and came determinedly to the desk. The color was high in her cheeks and she twisted her fox fur nervously in her hands. She was very young and much embarrassed. "Please, I have lost something," she said. "Could I see the person who has charge of that department?" "Why, certainly," said the clerk. "What did you lose?" The girl blushed and looked down. "It was a garter," she blurted out. "A new one I got for Christmas." "What kind was it?" asked the impatient clerk. "A—round one." "But what was its color?" "Oh, it had an amethyst setting and was blue silk." The clerk called the Lost and Found department. Yes, a garter had been found. It was of blue silk. It had an amethyst setting. In a few minutes it was in the young woman's hands. "Oh—oh, thank you," she breathed, and fairly flew out the door to the street.

Mr. Bugge—This newspaper makes a good airship, but you can't control it in a high wind.

## TURNING TO PEAT FOR FUEL

The fuel situation has directed attention to the possibility of burning peat, of which there are large areas throughout the United States and Canada, especially in regions remote from coal fields. The best development along this line is for industrial fuel rather than domestic purposes. Peat is well adapted for use on gas producers or for burning in powdered form. It must be collected, dried and powdered by machinery, and the main problem is drying without the use of artificial heat except such as may be available from other processes. In its natural state peat contains about 90 per cent water. The Canadian government has demonstrated the value of peat in gas producers for power and other purposes, while powdered peat has been used for some time in Europe with high efficiency. It is estimated that the cost of a ton of dried peat in this country will range from \$3.50 to \$4 in quantities of 5,000 tons, making it worth investigation as power fuel where coal costs \$8 a ton or more.

## "OVER THERE"

Captain—What's the corporal crying about now?  
Sergeant—Oh, the poor fellow's just had his first sight of a battle-field and it made him homesick.  
"Made him homesick, did you say?"  
"Yes; the fellow's from Chicago and it made him think of the stock yards."

## NOTHING OF THE SORT.

"Did the two men have an epistolary argument?"  
"No pistols used at all. They took it out in letter writing."—Baltimore American.

## MONARCHY LOSES.

Gubbers—I hear you overthrew royalty at your house last night.  
Hubbers—Yes, three big aces took the cake.

Misanthropic Impression.  
Although when Fate has made you fret  
A friendly hand you truly prize.  
Sounds like sarcasm in disguise.

The Surviving Vice.  
"Charley dear," said young Mrs. Perkins, "do you associate with men who drink and swear?"  
"Not with men who drink. But some of them are inclined to swear a little because they can't."

After the Lecture.  
"In his lecture he gave some bare facts."  
"Why, I thought his words were clothed with beautiful ideas."

Natural Proceeding.  
"Poor old Grimes! So he's gone at last. What a man he was to run after widows!"  
"Yes, after everybody's but his own."

**THE RICHMOND TERMINAL IS WELL ESTABLISHED**  
THE TERMINAL is the oldest newspaper in Richmond, and is on file in the leading Libraries and Chambers of Commerce in Los Angeles, Bakersfield, Fresno, Sacramento, San Francisco, Oakland, Berkeley, the State Universities, and other institutions in California.  
No other Richmond newspaper has this privilege, for the reason that it is impossible to handle small local dailies, as filing them each day necessitates extra labor and is cumbersome.  
THE TERMINAL is on file in the Capitol Library at Washington, D. C., and also the Public Libraries of New York City, Chicago, and St. Louis.  
THE TERMINAL newspaper boosted Richmond into prominence and affords hundreds of homeseekers the Public Library advantages of reading about the great industrial beehive of the Pacific Coast—RICHMOND.
